IN RE THE GENERAL ADJUDICATION

THE GILA RIVER SYSTEM AND  
SOURCE

Contested Case No. W1-11-3119

**ARIZONA DEPARTMENT OF WATER  
RESOURCES' REPORT**

(Special Master Susan Ward-Harris)

**CONTESTED CASE NAME:** *In re Augustine and Martha Avechuco*

**HSR INVOLVED:** San Pedro River Watershed Hydrographic Survey Report ("HSR")

**DESCRIPTIVE SUMMARY:** The Arizona Department of Water Resources ("ADWR") hereby provides the report as requested by the Court in the Minute Entry Order dated January 14, 2020.

**NUMBER OF PAGES:** Three and two-page attachment

**DATE OF FILING:** March 3, 2020

1 In the January 14, 2020 Minute Entry Order in this case, the Court requested that  
2 ADWR file a report addressing various information relating to watershed file report  
3 (WFR) 114-04-BAC-009.

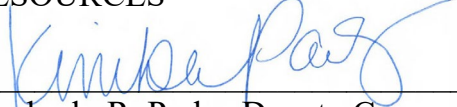

4 Tax parcel 300-55-009, which the Pinal County Assessor has identified as being  
5 owned by Sandra and James Goad, is located within the boundary of WFR 114-04-BAC-  
6 009. Based on the well's location and completion date, ADWR has determined that well  
7 55-806362 is the shared well identified in WFR 114-04-BAC-007 and WFR 114-04-  
8 BAC-009. Well 55-806362 is within the subflow zone. At the time of the San Pedro  
9 Hydrographic Survey Report (HSR) investigations, the entire tax parcel 300-55-009 was  
10 determined to have discontinued irrigation use. The irrigated area of the parcel was 0.94  
11 acres. ADWR is attaching a map of these parcels (**Attachment**) to better assist the Court  
12 and parties.

13 Well 55-530492 is registered to Sandra Goad; however, the well registration does  
14 not include parcel information, so ADWR cannot definitively provide the well's location.  
15 A parcel search for Pinal County shows that tax parcel 300-55-009 is the only parcel  
16 owned by Sandra and James Goad, so presumably Well 55-530492 was drilled on this  
17 parcel. Well 55-530492 was drilled in 1991. It is possible that this well was not included  
18 in the San Pedro HSR as the investigation was complete at that time. Based on the well's  
19 registered owner and completion date, well 55-530492 is not the shared well referenced in  
20 114-04-BAC-007 or 114-04-BAC-009. Well 55-530492 is located within the subflow  
21 zone.
